

A Typical Student Journey (Online MS)

We engage every student in creating their own journey through the school, with robust faculty and staff support and hands-on, holistic academic advising.

While in some ways while there is no “typical” student journey at The Friedman School, this is intended to give a general overview of the choices available to all online MS students. We encourage you to work with your advisor to design the pathway that works for you.

Friedman Online Core

Nutrition Science	Experiential Learning	Friedman Seminar
Foundational knowledge on the impact of nutrition on biologic functions and human health	Hands-on practical experience to enhance the in-class learning experience	School-wide venue to promote intellectual exchange on food and nutrition, featuring top scholars and professionals
<i>1-2 courses*, 3-6 credits</i>	<i>Minimum of 120 hours</i>	<i>1 course, 3 credits</i>

*Varies, depending on the specialization

Design Your Pathway**

Specialization (4 courses and 12 credits)	Elective courses
Students must choose one specialization from a list of three, and complete at least 12 credits in that area, including an applied policy course. Students may also choose to build their own specialization with guidance of their academic advisor.	After completing their specialization, students must complete a remaining 9 credits of other elective coursework, which may include courses within their area of specialization, or from a totally separate discipline

*Varies, depending on the specialization

**Please note that what is listed on the following slide may be subject to change as course offerings change over time.
