

**Announcement for a Postdoctoral Research Associate**  
Dwivedi Forest Sustainability Lab  
Warnell School of Forestry and Natural Resources, University of Georgia

**Position Description**

A vacancy for a postdoctoral research associate is available at the University of Georgia (UGA) Warnell School of Forestry and Natural Resources. The incoming associate will pursue research to characterize women forest landowners in three southeastern states of Georgia, Alabama, and South Carolina, reflecting upon their socio-economic status, changes in forestland ownership, and other essential factors. He/she will also relate the attitudes of women forest landowners with behavior in the context of sustainable forest management. Additionally, the incoming associate will work with Extension faculty members at the Warnell School for designing innovative outreach activities for the broader dissemination of research across selected states. The associate is expected to complete his/her research within one year from the start date (Summer 2021). Applications will be reviewed on a rolling basis.

**Qualifications**

Candidates (especially women) with relevant educational backgrounds (Ph.D. required) are encouraged to apply. International candidates are encouraged as well. Experience in designing surveys, conducting interviews, and regression modeling is preferred.

**Salary and Benefits**

This position will pay \$50,000/year along with health and retirement benefits. Opportunities for career development are also available at the UGA. Please see the [UGA Postdoc Portal](#) for more information.

**Application**

Please contact Dr. Puneet Dwivedi through an email before applying (<https://www.ugajobsearch.com/postings/190764>) by attaching your CV and other necessary details.

**Place of Work**

The UGA ([www.uga.edu](http://www.uga.edu)) is a Land and Sea Grant University. The UGA is located in Athens, Georgia, also known as Classic City due to local music, food, and recreational opportunities all year round. Established in 1906, the Warnell School (<http://warnell.uga.edu/>) is the oldest forestry school in the Southern United States, where 400 undergraduates and 200 graduate students pursue educational and research opportunities for ensuring sustainable management of natural resources, including forestry. The Dwivedi Forest Sustainability Lab (<http://forestsustainabilitylab.uga.edu/>) undertakes advanced research on issues that are at the interface of forestry, energy, and society worldwide.
