Teaching Portfolio

Teaching Responsibilities

Determinants of U.S. Food Policy (NUTR 303). Fall 2004 - 09 and 2011 - present.

- This second-year course is required for Food Policy and Applied Nutrition (FPAN) graduate students with domestic U.S. focus, meets the policy requirement for most students in Agriculture, Food, and the Environment (AFE), and frequently is chosen as an elective by graduate students in other programs.
- Recent enrollment: 36.
- Course evaluation (fall 2021). Overall, how satisfied were you with this instructor?: very satisfied (62%), satisfied (38%), neutral (0%), dissatisfied (0%), very dissatisfied (0%). Selected comment: "Parke was so enthusiastic about this material. I so appreciate his careful assessment of his own perspective on situations as well as getting us to think through what the traditional opposing perspectives might be."

Regression Analysis for Nutrition Policy (NUTR 307). Spring 2005 - 2010 and 2012 - present.

- This second-semester course is required for FPAN and AFE graduate students. It provides a rigorous introduction to regression tools for analysis of non-experimental data.

- Recent enrollment: 51.
- Course evaluation (spring 2021). Overall, how satisfied were you with this instructor?: very satisfied (71%), satisfied (29%), neutral (0%), dissatisfied (0%), very dissatisfied (0%). Selected comment: "I loved Parke's teaching style. He really encourages his students to be curious and asking questions. Further, he levels with the students a lot, meaning he understand aspects or areas of difficulty for his students. This allows students who are afraid to ask a 'stupid question' feel free to do so. He is very great teacher, very understanding, and very resourceful."

Adv. Analytic Methods for Nutr. Pol. Resear. (NUTR 401). Spring 2004 - 2007 and 2009.

Statistical Methods for Nutrition Research. Fall 2011 (second half).

The Obesity Epidemic: Science and Food Economics (lecturer and working group section leader). University Seminar. Fall and spring 2009 - 2010.
